

1288 Escutcheon with rain protection cover and toggle lock

Door fittings

Escutcheons

Varied IKON escutcheons meet a multitude of requirements. Particular note should be made of rain protection escutcheons with a cover for external doors directly exposed to the effects of weather (particularly rain or dust). Rain protection escutcheons with additional toggle lock in the protective flap have proven their worth in remote buildings, transformer stations and similar.

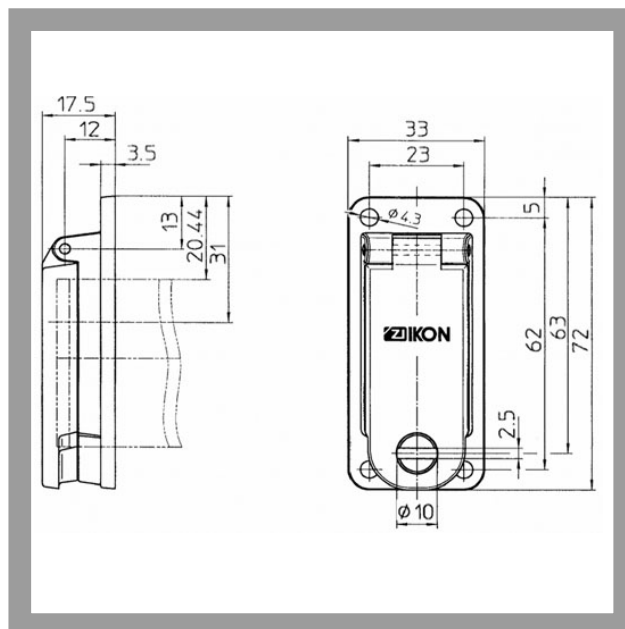

Area of Application

IKON supplies various escutcheons with different catches and caps for locking cylinders exposed to severe weather conditions. These escutcheons are easy to mount and fulfil a variety of applications. Particular note should be made of rain protection escutcheons with a cover for external doors directly exposed to the effects of weather (particularly rain or dust).
