

9M08 Krallfix® 3 hinge safety mechanism

Additional door locks and security devices

Hinge safety mechanism

Universal security for the hinge side

In over half of all break-ins doors and windows are forced open by the most basic means. The IKON claw range provides the best possible protection against forcing or breaking open and provides a secure seal: on the handle side, hinge side, in appealing design, in white, brown, silver, even lockable. Functions such as opening, closing and tilting are not affected. Handling and installation are simple.

Area of Application

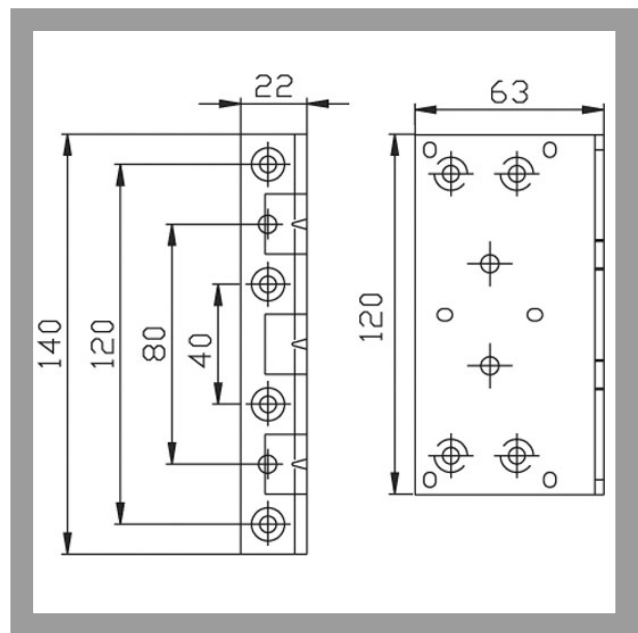

The IKON Krallfix® 3 hinge safety mechanism is suitable as an additional safety mechanism on the hinge side of doors, UPVC, wood and aluminium single action windows and balcony doors. This hinge safety mechanism features simple installation and ease of handling and is particularly suitable for houses and apartments located on the ground floor.
