

9M57 Bracket- security strike plate for rebated doors

Security strike plates

Bracket strike plates

Prepared for electric door openers without anchor

IKON security strike plates provide the fundamental security for main entrance doors to houses and apartments in conjunction with mortise locks, locking cylinders and security fittings and offer a high degree of security against attempts to break or lever doors open. IKON supplies a wide range of high-quality security strike plates for different applications.

Area of Application

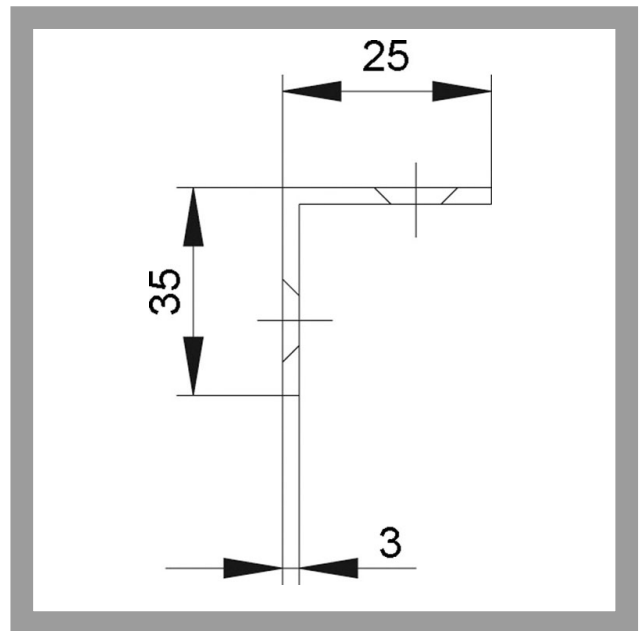

IKON security strike plates are anchored in the door frame and act as receptor for the latch and bolt of the mortise lock.
