

P020,AUS=LH28 Cylinder padlock - system P0

Mechanical locking cylinders

Padlocks

A padlock enables you to protect valuables inside and outside a building. IKON provides optimum security - conveniently and safely. IKON padlocks can be employed flexibly and are ideal for securing valuables, even in remote locations. They are available for internal use and as corrosion protected versions for external use. IKON can supply a wide range of padlocks (e.g. as numerical combination locks or padlocks with variable shackle heights for different applications).

Area of Application

The various IKON padlock versions provide the appropriate solution for every application. IKON padlocks are especially suitable for locking cellars and basements, stables and allotments, tool sheds and boat houses or wardrobes. You can also secure tool trolleys, construction vehicles and trailers or oil tank and machine protection equipment with IKON padlocks perfectly.
