

T027 Overhead door closer T802 with universal sliding rail

Door closers

Door closer sets

Closing force - range EN 2

IKON concealed door closers are distinguished by their sophisticated technology. These door closers provide a high degree of user comfort, as all settings on the door closer can be adjusted easily using valves. Concealed door closers are installed in rebated doors and can be used for DIN left and right applications.

Area of Application

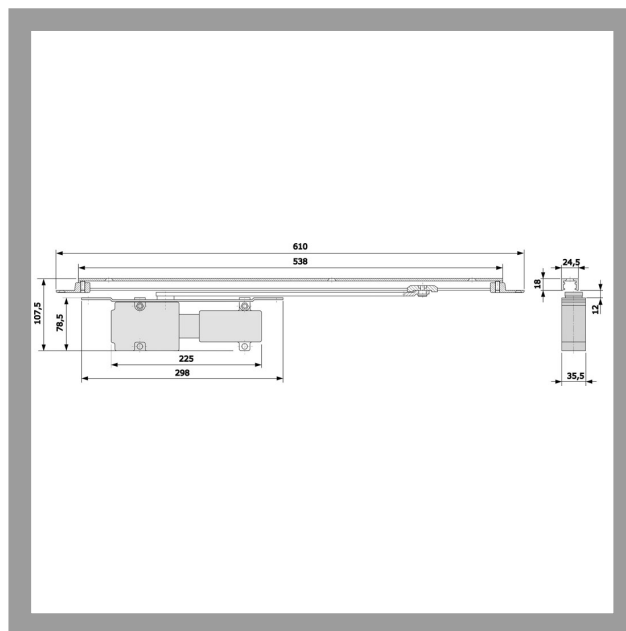

This IKON door closer is suitable for internal and external DIN L/R single action doors. Standard installation concealed within the door leaf, with overhead mounting possible on the door frame. This door closer is suitable for door leaves widths up to max. 850mm and is invisible when the door is closed.
