

T464 Sliding rail

Tested in accordance with EN 1155, EN 1158

Door closers

Arm systems and sliding rails

IKON provides a wide range of accessories and spare parts. Please note that the overall quality of IKON products can only be ensured if suitable original components are used.

Area of Application

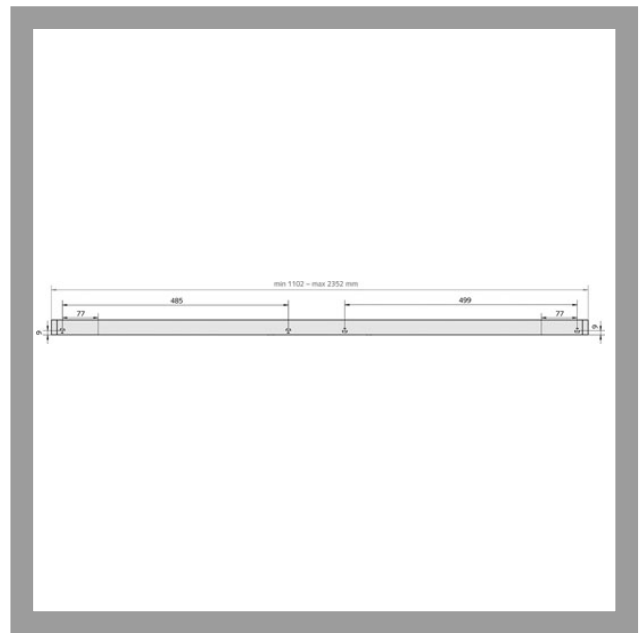

This IKON sliding rail with integrated door selector and electromechanical hold-open on one side (selectively in the pivoting or stationary leaf) is suitable for T243 and T250 door closers. The sliding rail is mounted on doors with electromechanical hold-open device that are automatically closed when the power supply is interrupted. The sliding rail is suitable for use with double-leaf doors with a maximum door leaf width of 1250 mm and a maximum hinge spacing of maximum 2,500 mm, depending on the door closer model employed. The sliding rail can also be used on asymmetrically-divided double-leaf doors with a minimum width of 400mm.
